

Clinical Topics for Community Health Workers

Please join Dr. Jill Ginsberg and other North by Northeast staff!

This six-session training is designed for both newly certified and practicing Community Health Workers who wish to improve their clinical knowledge and their skills in helping community members who are living with health issues.

Schedule of topics:

1. Separating fact from fiction: nutrition and health fads
2. Hypertension: what it is, why it matters and how it is treated
3. Diabetes: busting myths and helping community members find success
4. Clinical documentation skills: charting and abbreviations
5. Preparing for health care visits: setting expectations, effective communication
6. Translating medication instructions into plain language; medication reconciliation

When: Six consecutive Fridays from 1-5 PM: May 1- June 5.

Sign up by April 10, 2015. Class size limited to 18.

Where: The Garlington Center, 3030 NE MLK Jr. Blvd. Portland

Series cost: None, thanks to funding from Mt. Hood Community College and the Oregon Community College and Workforce Development Commission

For more info or to reserve your spot: Contact Executive Director, Suzy Jeffreys, 503-946-6380 or sjeffreys@nxneclinic.org
