Idaho STD/HIV Material Review Panel
Department of Education – Department of Health and Welfare

Approved	Title	©	Producer	Date of Review	Rating (1 - 4)	Abstinence Only	Notes
Y (Recommend use with skilled moderator)	It's Your Choice		Maverick Media Productions	Sept 2007	1.5	No	Teen pregnancy information is good. Video promotes teens talking to teens. Media clips not appropriate for school use. Mention of non-noxynol 9 which is no longer recommended. No mention of modes of transmission other than intercourse.
Y	Just Like You Imagined?	2001	Scenarios USA	June 2009	4	No	Well done film. Runtime: 15 minutes
Y	Monster	2000	Scenarios USA	June 2009	3.5	No	Well done, target audience might be very urban – dialectic. Could be used as a conversation starter. Runtime: 11 minutes
Y	Nightmare on AIDS Street	2000	Scenarios USA	June 2009	4	No	Powerful film. Great conversation starter, engaging and creative. Runtime: 5 minutes
Y	Puberty: The Great Adventure	2004	ETR Associates	Sept 2007	3.5	Yes	Target Audience: 5 th – 8 th grades.
Y	Reflections	2006	Scenarios USA	June 2009	2.75	Yes	Video may be too “urban” for most Idaho

Approved	Title	©	Producer	Date of Review	Rating (1 - 4)	Abstinence Only	Notes
							schools. May reinforce stereotype and stigmatize the black community and those from the “big city”. Not racially diverse. Runtime: 20 minutes
N	Sex a Topic for Conversations with Dr. Gordon	1987	Mondell Production INC	Sept 2007		No	Concepts about love and sex are good but the video is outdated, most kids would not take this seriously. Uses term ‘venereal disease’. Gender roles inappropriate for most audiences.
Y (Recommend use with skilled moderator)	Sex Smart for Teens	2003	ETR Associates	Sept 2007	1	No	Target Audience: High School students. Video recommends 6 months for HIV test, new recommendation is 3 months. Some use of negative comments like “dumb” for describing behavior. Good overview of STI curable vs incurable.
N	Sexually Transmitted Diseases	2002	National Health Video, INC	Feb 2008			Very outdated information. No mention of hepatitis B vaccination for children. No mention of hepatitis C risk.

Approved	Title	©	Producer	Date of Review	Rating (1 - 4)	Abstinence Only	Notes
Y	Tell It To Me Straight			June 2009	4	No	<p>Much needed in today's society, good resource for parents. Not for use in classrooms.</p> <p>Encourage use of fact sheets and available resources to go along with the video.</p> <p>Meets the goal to get parents involved, and to get them to understand what is happening with middle school kids.</p>
Y	That's a Family	2000	Ariella Ben-Dov, Debra Chasnoff, Fawn Yacker	June 2009	4	NA	<p>Very easy to watch, non-threatening. A good example of diverse families and helps normalize different types of families.</p>
Y	Three Girls I Know	2004	Paula Mozen	June 2009	3.5	No	<p>Needs a great facilitator who is ready to discuss all the issues presented – e.g. abusive relationships, sexual abuse, and peer pressure. Video could be broken down into segments and would be good for teen mentor programs that include multisession class use.</p>

Approved	Title	©	Producer	Date of Review	Rating (1 - 4)	Abstinence Only	Notes
Y	Women Like You	2004	Pfizer, NAACP, LA HIV Prevention Trials	Feb 2008	4	No	Very current and very good video.
