# Remote Registry

Remote Registry-this is how to search for a patient in another registry. Currently the only registries available are Washington and Louisiana.
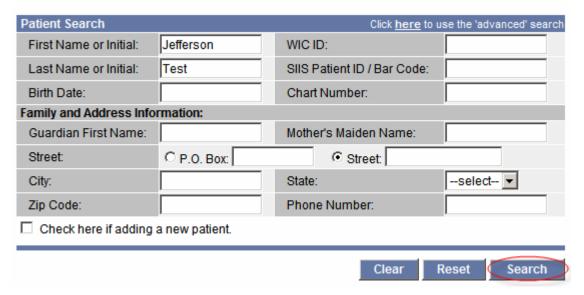

1. Log in to IRIS

2. Search for the Patient you need are trying to find. You can search by name.

Or you can search by their SIIS Number

Or you can search by birth date

3. Then on the left on the Search button

Patient Search		Click here to use the 'advanced' search
First Name or Initial:	Jefferson	WIC ID:	
Last Name or Initial:	Test	SIIS Patient ID / Bar Code:

☐ Include in CASA (currently 0 patients flagged)

7. Select Remote Registry under Patient on the left hand menu

8. This will take you to the Remote Registry Connections

9. Under Remote Connections, select Washington. Washington is the default setting.

10. Then click on the Save button

11. You will then be asked to read and accept Washington's User Agreement.

CHILD Profile Information Sharing Agreement

CHILD Profile is Washington State?s immunization registry and health promotion system. It is operated by the Washington State Department of Health (DOH), for the benefit of children, their care providers, health plans, public health agencies and other entities that are concerned with assuring the effective immunization of children.

DOH has adopted a CHILD Profile Information Sharing Policy which guides its practice with respect to release of patient-specific, provider?specific, and health plan-specific data. The provisions of this policy are incorporated into this Agreement.
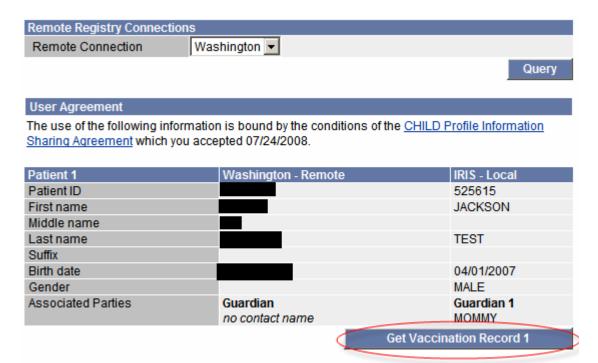

1. The Provider shall disclose information about individual patients, received from other providers through CHILD Profile only to those patients, their parents or other legal guardians (if applicable), to the Provider's employees, contractors, officers, agents or other affiliates authorized to act on behalf of the Provider under this Agreement, or to Providers who need the information in order to provide health care to that patient, unless 1) the Provider obtains a release under the terms stated below, or 2) a court order requires such disclosure.

2. Any Immunization Data the Provider obtains from CHILD Profile about individual patients may only be used by the Provider and its Personnel for the purpose of providing immunizations or otherwise coordinating health care for its patients. In the event the Provider discovers that any person associated with the Provider may have accessed information for any other purpose, the Provider shall notify DOH immediately.

3. If the Provider discloses information pursuant to a release, which is otherwise barred from disclosure under this Agreement, the Provider shall ensure that the release is 1) in writing, with a copy retained by the disclosing party, 2) executed by a person with the legal authority to enter into such a release, 3) legally applicable to the information to be disclosed, and 4) effective on the date of the disclosure.

4. The Provider agrees to ensure that registry user ID?s and passwords are disclosed only to individuals authorized by the Provider to access patient Immunization Data. In the event the Provider discovers that CHILD Profile?s privacy and security have been breached by its employees, contractors, officers, agents, or other affiliates, the Provider shall notify the CHILD Profile Help Desk immediately by phone at 206-205-4141, or by e-mail at cphelpdesk@metrokc.gov.

5. The Provider is subject to civil sanctions, including attorneys? fees, under RCW 70.02.170 for the unauthorized disclosure of health care information derived from CHILD Profile, including patient immunization data. If DOH verifies any material breach by the Provider of the obligations to maintain confidentiality, DOH may terminate access to the registry immediately.
