F 314	Proper treatment to prevent/heal pressure sores	26	32.50%	17.69%	<b>10</b>

**Tag Description** This is the main category for a specific citation, however, each tag can have a different meaning based upon the findings at the time of a survey.

**Rank** The numbers in this column represent the frequency of citation for specific tags, however, two or more tags could have been cited at the same frequency and it is not possible to distinguish different rank order for those tags - for example, three different citations could have each been cited "X" times so that all three have the same frequency.
