Topic	Presenter	Discussion	Action/Outcome
Share Point	Tammy	Work group members need a better way than email to receive and review documents.	Tammy will give access to the work group members for the share point which will be up and running shortly.
Quality of Life Survey	Marilyn	We may want to include a move survey within the quality of life survey for a 30 days prior, 30 days post, and 12 months post in order to gain more of a feel for how the housing situation is going.	As of today, we are going to utilize the CMS Quality of Life survey as is and down the road after we have transitions, we can assess how the survey is doing and add additional questions as needed.
Enhanced Rates	Natalie Marilyn	Washington is providing enhanced benefits to the participants through the increased FMAP, why are we not going this route?	We will not be using the increased FMAP to increase rates. Medicaid currently can assess and authorize benefits according to the participants needs. If a participant needs more services when they initially transition we can authorize those on a case by case basis. This gives us the ability to adjust the amount of services as we go to better serve the participants.
