The Idaho State Planning Council
Legislative Event 2010

The Idaho State Planning Council chooses a key topic for the Legislative Event to raise awareness and allow us to further enlighten and educate our audience on a specific subject. Our theme: "YOUTH: Our Greatest Resource" was the subject of this years event. A panel was assembled to include two youth and a family member. They each provided the audience with an accounting of their individual journey, achievements and successes in dealing with mental illness in their lives. Their stories were both moving and inspiring as they walked the audience through their own personal trials and triumphs.

Each year the Idaho State Planning Council brings recognition to exceptional individuals who devote their time, energy and understanding in bringing awareness and insight to mental health. We are please to announce this year's award recipients:

- Media Award:
  Katherine Jones – Idaho Statesman

- Law Enforce/Court Award:
  The Honorable Bryan K. Murray – Magistrate Judge for the 6th Judicial District

- Advocacy Award:
  Former Representative Kathie Garrett

- Legislative Award:
  The Honorable Senator Joe Stegner

These individuals are all proven leaders in educating the public and their associates on mental health issues and concerns across Idaho.

Teresa Wolf and Senator Joe Stegner
