Evidence-Informed Management of Co-occurring Addiction & Mental Illness in Adults & Adolescents

A CTN Pacific Northwest Node CE Training Event

This training, hosted by the Pacific Northwest Node of the National Drug Abuse Treatment Clinical Trials Network, will feature experts from the PNW Node and affiliated treatment programs. The format will include both lecture and interactive discussion of case studies. This training covers content presented in the June 8 workshop held in Seattle, with additional focus on adolescents.

Who should attend? Chemical dependency and mental health counselors, psychologists, and others.

South Campus Facility

412 E Spokane Falls Blvd

WSU Spokane campus
