ATTENTION: It is the individual responsibility of each attendee to be knowledgeable of the particular ethics and state laws for their profession with respect to areas of authorized practice, as well as those areas of practice that are beyond the scope of the attendees' credentials. ISIP is not responsible for any misunderstanding or misapplication of the training received.

About this Learning Opportunity

The Idaho Society of Individual Psychology has been in existence since 1977. In recent years, ISIP's membership has grown primarily due to the interest of social workers of all levels in the training and opportunities for credits, both CEU and graduate. ISIP is dedicated to bringing quality education to practitioners in order to increase their professional skills in serving a wide variety of client needs.

The SERIES described below began in Boise, October 2001, almost 250 graduates to date. The Series began in Lewiston, May 2004, and in Pocatello May 2005.

The series of workshops leading to a **Certificate in Professional Studies of Adlerian Psychology** are:

- #1 Adlerian Theory of Personality Development and Family Functioning
- #2 Adlerian Psychotherapy
- #3 Adlerian Family Therapy

These workshops may be attended in any order. Completion of all three workshops, plus attendance at one ISIP Annual Conference, enables an individual to receive the **Certificate in Professional Studies of Adlerian Psychology**.

"Anyone trained in Adlerian Psychology knows what to do the first time they sit down with a client and through the process."

Wes Wingett, Ph.D. & Steven Maybell, Ph.D.
