- CURRENT DRUG CULTURE & CHANGES IN VARIOUS STATES ACROSS THE US
- OTHER ASSOCIATED EDM EVENTS

This training will break down the sweeping trends of drug concentrates and all of the new products, terms, paraphernalia, concealment and the associated trends. With the changes in legalization in this region of the country, along with the products that are being sold and distributed, whether legally or illegally in various states, it is EXTREMELY important to educate yourself on these various different products and the items that are already hitting our streets, schools, and our communities.

This training will show how high potency THC is extracted, used, packaged and concealed. Also, the dangers of Hash Oil Labs (today's version of a meth lab) will be discussed -along with the various different methods of extraction and the dangers that are associated. Furthermore, certain e-devices that are being used for drug use will be discussed, and tools in identifying them.

Marijuana edibles and new drug paraphernalia have become popular in recent months. Also, home labs and new ways of concealment have emerged. This training will discuss and show the new "non-traditional" items that have come onto the national scene and how to identify them.

These new trends are very popular and it is important for all who are involved in prevention, education, treatment or enforcement to understand these sweeping changes in the drug culture.
