

Name of Module:	Intramuscular (IM) medication administration							
Module Provider Level:		EMR	X	EMT	X	AEMT		Paramedic
Instructional Setting:	X	Single Student		X	Small Group		X	Whole Class
Learning Domain(s):	X	Didactic		X	Psychomotor		X	Affective
General Description of the Lesson:	EMT		Applies a fundamental understanding of intramuscular injections that an EMT may need to perform to a patient having a medical emergency.					
	AEMT		Applies a foundational understanding of intramuscular injections that an AEMT may need to perform to a patient having a medical emergency.					
Objective(s) of Lesson:	EMT		1.1 Describe the 6 rights of drug administration 1.2 Discuss proper needle handling procedures 1.3 Discuss the proper documentation of intramuscular medication administration 1.4 Describe the proper equipment, technique, complications and general principles for the preparation and administration for intramuscular injections.					
	AEMT		Same as EMT					
Assessment type(s):	X	Quiz			X	Observation		
	X	Lab Skill Sheet				Other:		
Describe the assessment plan:	Students must correctly perform Intramuscular Injection Skill sheet without missing any critical criteria elements. Students must complete quiz with a minimum of a 70%							
Describe electronic resource(s) used in this plan:	IM injection PowerPoint							
Materials and Resources used by teachers and students:	IM injection PowerPoint Presentation <i>Intermediate Emergency Care, Principles and Practice, (Chapter 4).</i>							

	<p>Intramuscular Injection Skill Sheet</p> <p>EMT and AEMT Intramuscular Injection Quiz</p> <p>3-5 cc syringe, saline, 21-23g 3/8 to 1 inch long needles, alcohol prep, & bandaid</p>			
Teacher Procedure:	<p>Class lecture should last no more than 1 hour.</p> <p>Demonstrate how to properly perform an intramuscular injection</p> <p>All students will take Quiz</p> <p>Each student will properly demonstrate how to perform an intramuscular injection following the MDI Skill Sheet.</p>			
Student Tasks:	See assessment plan			
Time Required:	# of class periods:	2	# of minutes per class period:	60
Notes, tips, suggestions, and/or extension activities:	Please refer to the note pages on the PowerPoint presentation.
